Agile Software Development: Scrum for Developers

Become a Full-Stack Web Developer

Leandro A. Siqueira

Senior Front-End Software Engineer delivering Agile solutions based on React | Agile Master | Problem Solver

Campinas, São Paulo, Brazil

Summary

With over 20 years of experience in front-end development, I am a seasoned professional who loves creating and delivering digital projects with high quality and performance. I have a Scrum Master certification from Scrum Alliance, which enable me to combine technical expertise with business acumen and agile practices.

Currently, I work as a Senior Front-End Software Engineer at Venturus, a software development company that provides innovative solutions for various industries. There, I use HTML5, React, AntD, TypeScript and AWS to develop and improve web applications for different clients and sectors, such as finance, education, health, and e-commerce. I also collaborate with other developers, designers, and stakeholders to ensure the best user experience and satisfaction. In my previous roles, I have also held leadership positions, such as Technical Lead and Agile Master, where I helped teams to deliver great projects using new technologies and design systems. I am always looking for new challenges and opportunities to learn and grow as a professional and as a person.

Experience

Venturus
Senior Front-End Software Engineer
June 2023 - Present (1 year)
Campinas, São Paulo, Brazil

Acting as Senior Front-End Software Engineer, with a awesome team, to create, reuse and maintain custom projects based in React, TypeScript and AntD for a huge company. We focus on performance, compliance and to keep things simple as they are.

Pravaler
Senior Front-End Software Engineer
March 2023 - June 2023 (4 months)

São Paulo, São Paulo, Brazil

Acting as Senior Front-End Software Engineer with the Portal do Aluno, resolving issues, adding new features and improving all the architecture and observability features of the Portal do Aluno. Also helping the Team to accomplish and to do a good job.

Itaú Unibanco

UOL
Senior Front-End Software Engineer
May 2010 - September 2012 (2 years 5 months)
São Paulo Area, Brazil

Acting as Front-End Software Engineer and acting in two different projects based only in HTML, JavaScript, jQuery and jQuery UI with all the data from

different web services (REST/JSON) to control, maintain and automate all the core of the UOL DIVEO Data Center.

Ci&T
Front-End Software Engineer
November 2007 - May 2010 (2 years 7 months)
Campinas Area, Brazil

It's a pleasure to work with Ci&T and their co-workers. Very nice environment with true challenges, a lot of fun people and to complete, it's a great place to work !

I worked for the Johnson&Johnson projects, like the general brands of consumer products from USA (Aveeno®, Clean&Clear®, Johnsons Baby®, REACH®, ROC®, Neutrogena® websites, Rogaine®, Ambi Skincare®, Listerine® and Listerine® Kids®, Stayfree®, Carefree®, O.B.® and KY® and a lot of other websites products) and recently with the ACUVUE® Contact Lenses Consumer products.

All the projects use technologies like AS2 and AS3, XHTML and CSS, Javascript and jQuery, the backend are not the same almost the time, then I surfed between back ends developed with Java, PHP (Drupal), .NET and Sharepoint and pure XHTML.

I have a great experience with SEO, website performance improvements, clean code, accessibility and agility process.

Webcompany Agência Digital
Webmaster
March 2007 - November 2007 (9 months)
